Product Owner

Description

This role will help define the roadmap of one or more of Lynx Global's in market subsidiary companies. You will be working with a dev team on a day to day basis to prioritize and deliver new features to our user base.

Responsibilities

- Experience with Agile Scrum, Fintech and formal Product Development methodologies.
- Comfort working in a fast paced environment with distributed teams
- Strong leadership presence

Hiring organization

Lynx Global
The Lynx platform allows global FinTech companies to quickly and easily access the vast and growing Southeast Asian market. By reducing barriers to entry and bridging the gaps within a fragmented market Lynx allows Fintech companies to provide cutting edge solutions to a massive market of eager consumers without the difficulty of establishing their own in market infrastructure or obtaining their own licenses.

Employment Type

Full-time

Job Location

Manila, Philippines

Date posted

November 26, 2021
